

# Are your physicians looking for a solution to *efficiently capture* the patient's story while utilizing the benefits of *athenaClinicals®*?

At **MedOfficePro** we  
have the answer!

With our **Internal** or **External** dictation solution,  
physicians can choose how to streamline their  
documentation process.

"MedOfficePro provides  
me the opportunity to  
choose how I want to  
document each  
patient's story."

**MedOfficePro**  
has the right answer with  
your physicians' needs in mind

# At MedOfficePro, a provider can choose between Internal or External dictation solution. It is always the Provider's choice!

## INTERNAL

Allows physicians to document right from the patient's open encounter within athenaClinicals®

### DICTATION IS AS EASY AS 1-2-3

1. Open the patient encounter
2. Click on the microphone icon and dictate in the desired sections
3. Hit **"Send"**

## EXTERNAL

Allows physicians to utilize MedOfficePro's goDictate app that interfaces directly with athenaClinicals® (EHR) allowing physicians to view their schedule in real-time, dictate and submit all on one device!

### FOLLOW THESE THREE SIMPLE STEPS

1. Open the goDictate app on your iPhone or iPad
2. Choose a patient and begin dictating
3. Hit **"Submit"**

goDictate!
